## Bonus Task

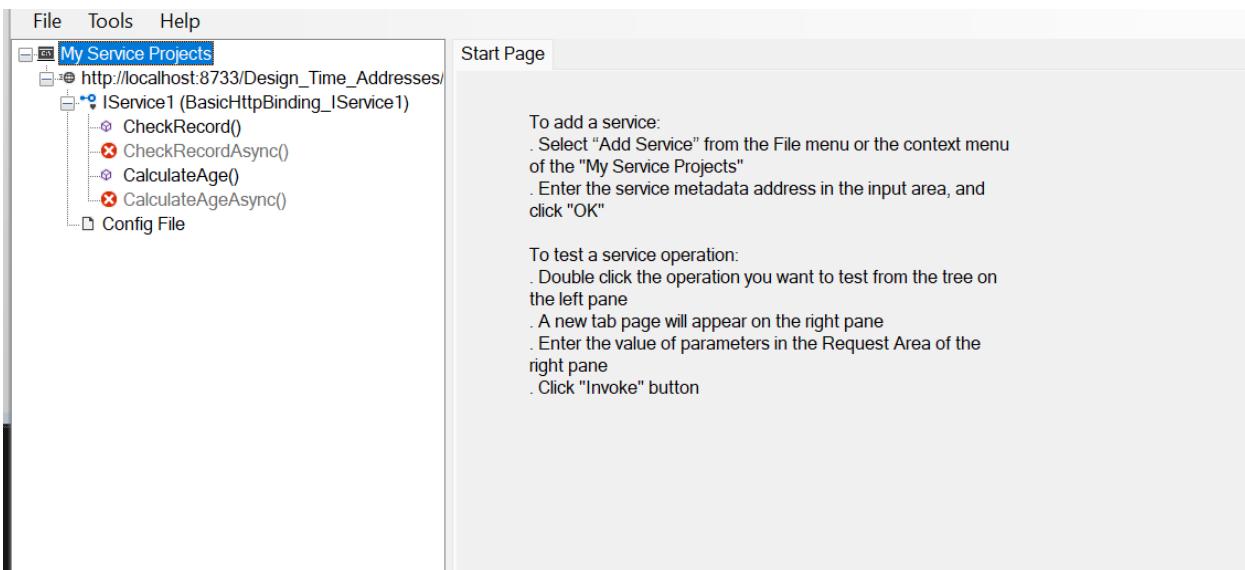

name:Ahmed Ali

ID 19200103

<input type="text"/>	Status	age
<input type="button" value="CheckRecord"/>		

The screenshot shows the 'CheckRecord' service operation test page. The 'Request' section contains a table:

Name	Value	Type
name	ali	System.String

The 'Response' section contains a table:

Name	Value	Type
(return)	True	System.Boolean

Buttons at the bottom right include 'Start a new proxy' (unchecked) and 'Invoke'.
